AFTER THE CYCLONE

A Heavy Down-Pour of Rain at Baton Rouge.

GREAT DAMAGE BEING DONE

The Loss in the City Will Reach Over a Quarter of a Million Dollars—One More Death Increases the Number to Eleven. The Homeless Being Cared for by Their More Fortunate Neighbors—Reports Coming in From the Country Devastated by the Wind.

BATON ROUGE, La., July 8.—The rain that came with the cyclone Monday is still pouring down. There is in the whole country no gloomier city today than is Baton Rouge. A pathway 200 yards wide across the town is littered with the wreck of houses, etc., that were blown down. Many people are homeless, but are being cared for by their more fortunate neighbors. The fact that the rain continues adds much to the damage, as in those houses that were simply unroofed the furniture is almost ruined. The buildings left standing at the penitentiary are all more or less wrecked, the only one not unroofed being the old machinery hall, in which the wounded were placed.

John Fahey, of St. Landry, died at an early hour, making the eleventh victim. He had been horribly mangled. Two more of the injured convicts will probably die within the next few hours and four others are in a critical condition. Surgeons are doing noble work, not having left the wounded since the accident. The best of order prevails among the convicts.

The tug Smoky City, which was caught in the storm about a mile from the city, passed yesterday in tow to Pittsburg. At the time of the accident she had in tow six empties bound up the river. Captain T. C. McClure said that he had on board at the time a crew of forty-two. A dozen or more were badly injured and not a man escaped without bruises. A negro was blown overboard and drowned. A deck hand who was severely hurt was sent by train to New Orleans. The captain estimates his loss at \$10,000, on which there is no insurance.

The loss to property in the city will amount to fully \$250,000. There is but one storm insurance policy on any of it and that amounts to but little.

Reports from the country state that for fourteen or fifteen miles across the river a swath fully 200 yards in width was cut. Not a stalk of corn, a bit of fence or a building in the path of the storm remains standing.

AMERICAN HEBREWS.

Action Taken to Secure Employment for Russian Israelites.

BALTIMORE, July 8.—At the council of the union of American Hebrew congregations which met here yesterday, a resolution was introduced which requests that action be taken looking to co-operation with the trustees of the Baron DeHirsch fund in aiding Russian Israelites in securing employment, and to make them self-supporting. The resolution was referred to a committee.

The following cablegram was sent to Baron Hirsch: "The Union of American Hebrew congregations in session express to you their great pride that you have set such a noble example of broad humanitarianism to all the world. As American citizens we feel that you have interpreted aright the motto of Judaism. 'My country is the world, my countrymen, mankind.' May your life be as long and happy as it has been useful." It was decided to hold the next council in Washington.

THE STEAMER ITATA.

She Will Be Labeled at Once by Orders of the Attorney General.

WASHINGTON, July 8.—United States Marshal Gard, at San Diego, Cal., Tuesday telegraphed the department of justice asking instructions as to what course he should pursue in taking possession of the Chilean insurgent steamer Itata.

Acting Attorney General Manry in answer to Marshal Gard's telegram, instructed by wire United States Attorney Cole to label the vessel at once and by due process turn her over to the United States marshal.

By arrangement with the navy department in whose custody the Itata now is, the transfer of the Itata to the jurisdiction of the department will be made at once.

Wholesale Lynching Expected.

SPRINGFIELD, O., July 8.—A wholesale lynching is expected at Long Run, this county, where a bloody fight took place Monday between a gang of Hungarians and the authorities. The trouble grew out of a Fourth of July celebration between the negro and Hungarian miners, and as a result, "Sport" Cary is dead and Wilson Cary and Mrs. Johnson are fatally injured. Fifteen of the Hungarian rioters have been captured, and if not lynched will be brought here.

Canada's Largest Ship.

HALIFAX, N. S., July 8.—The ship Canada, the largest vessel ever built in Canada, was launched at Bingsport, yesterday. She is 175 feet long over all, 45 feet beam, 37 feet depth of hold, 2,400 tons net, and her cost was \$100,000. She was built and is owned by C. R. Burgess, of Wolfville and Kingsport, and by Boston and New York parties. She is chartered to load denls from St. John for Liverpool.

CANTON, O., July 8.—A gang of tramps attacked Jacob Kropp, a farmer, who was trying to chase them off his farm. He was terribly beaten with stones and clubs and is in a critical condition. The men escaped.

DEED OF A DESPERADO.

Tragedy Resulting in the Death of Two Men and the Wounding of Another.

SAN FRANCISCO, July 8.—A tragedy resulting in the death of two men and the wounding of a policeman occurred here yesterday. A year ago Mariano Soto, a wood chopper, and one of the most desperate characters in the state, cut and fearfully wounded his wife and fled to parts unknown. The woman recovered and opened a boarding house. Her lodgers were Mexicans and mostly wood choppers. Yesterday Soto returned to the city and called at the house. His wife saw him in time to escape through the back door.

Soto entered the rear of the house where he saw a Mexican in a room and fired a shot at him, but without effect. The Mexican escaped by a window. Soto then went to another room in the front of the house, apparently looking for his wife with the smoking pistol in his hand. A lodger named Nicholas Smith was in the room holding the door. Soto fired through the door shooting Smith through the heart. The desperado then started down the street with a pistol in each hand.

Officers Edwards and Monahan started after the murderer. When within half a block of him he opened fire on the officers. After many shots had been exchanged Soto ran into a small shanty, bolted the door and crawled under a bed. Officer Edwards exhausted his ammunition by this time, and was wounded in the arm. He secured a rifle from a house near by, and shot through the door of the shanty and under the bed. Soto returned the fire for some time, but finally shouted that he would surrender. He was dragged from under the bed and found to be riddled with bullets. He died in a few minutes. The officer's injury is not severe.

ANOTHER POINT LOST.

The Defense in the Elliott Murder Case Receives a Severe Blow.

COLUMBUS, O., July 8.—Bill Elliott's attorneys introduced on the stand yesterday a witness, Robert Wolfe, by whom they expected to gain a strong point in the revolver purchase. Contrary to their sanguine expectations the court permitted the state in the cross-examination to put such questions to the witness which let out the story that he, not Osborn, was afraid Elliott would do mischief.

Being a warm friend of Osborn's, Wolfe prevailed upon him to buy a revolver after he had concluded to rely upon his case for defense in case of an assault. Wolfe not only bought the gun and cartridges, but tested them and showed Osborn how to use the weapon. This point lost, the defense will suffer quite a blow, as they had relied upon showing a determination upon the part of Osborn to kill his foe.

One Death Followed by Another.

ALEXANDRIA, Va., July 8.—Late Saturday night while attempting to land on the wharf from an excursion steamer, Miss Eleanor Dove slipped from the narrow walk in the darkness and fell into the river. Her escort, a young man named Stout, who was unable to swim, promptly jumped in after her and made a brave attempt to rescue the young lady. Mr. Stout was rescued, but Miss Dove's body has not yet been recovered. Her mother was so seriously affected by her daughter's death that she went into convulsions and died last evening. It is thought Miss Dove's body will be recovered farther down the river, having been carried away by the tide.

Missionary Barkentine Heard From.

SAN FRANCISCO, July 8.—The steamer Australia, which arrived from Honolulu yesterday afternoon, brought news of the arrival of the American missionary barkentine Morning Star at that place after a cruise of a year. Two calls were made at Ponape, Caroline Islands. On the first visit Spanish soldiers and natives were found engaged in warfare. At one battle the Spanish mustered out 1,200 men against 300 natives, but were defeated in spite of the great odds with heavy loss. At the second visit of the Morning Star the natives were found at peace.

French Cable Extended.

WASHINGTON, July 8.—The United States consul at Santiago de Cuba reports to the state department under date of June 12 that the lines of the French Telegraph Cable company, already extending to Mole St. Nicholas, Port-au-Prince, Puerto Plata, San Domingo city, Curacao, La Guayra and Caracas, have been extended to Point-au-Pitre, St. Louis and Paramaribo. It is expected that the line to Rio de Janeiro, via Para, will be completed by Aug. 15 of this year.

Will Oppose the Printers.

NEW YORK, July 8.—The Typotheta Society of Master Printers adopted a resolution yesterday opposing the demands of Typographical union No. 6, for an increase of wages and a reduction of working hours to nine. The resolutions will be presented to the meeting of the national union in Cincinnati next September.

Lake Schooner Wrecked.

MILWAUKEE, July 8.—A telephone message received by The Journal from Port Washington says: The wreck of a two-masted schooner was discovered yesterday, north of this place. A tug took three sailors, comprising the crew, off in safety. Captain Johnson, wife and child were drowned. The schooner was the Silver Cloud, of Milwaukee, bound from Bailey's harbor to Milwaukee with cedar posts and lumber. The crew kept at the pumps as long as possible. About two o'clock in the morning they gave it up, and Captain Johnson went to the cabin to rouse his wife and child. While below a heavy sea struck the schooner and capsized her. The bodies have not been recovered and are still in the cabin. The wreck has been beached about two miles north of here.

HEAVY RAIN STORM.

Great Damage Done in Nebraska and Kansas.

THE CROPS ARE BADLY INJURED

Thousands of Dollars Injury Done to Wheat and Other Grain—Rivers Already Over Their Banks and Rapidly Rising. Bridges Swept Away and Railroad Traffic Entirely at a Stand Still.

OMAHA, July 8.—A heavy rain storm set in at midnight Monday night and has continued ever since. Trains on the Union Pacific, the Elkhorn and the Burlington are all delayed. The Columbus branch of the Burlington is idle, several bridges having gone out.

The Elkhorn railway bridge over the Platte river has gone out. The Elkhorn river is rising rapidly and the Platte shows symptoms of a heavy rise. The Burlington has a bad washout at David City. The continued rain is doing thousands of dollars damage to crops.

Missouri River Again Rising.

KANSAS CITY, July 8.—Dispatches from various parts of the eastern half of Kansas and all of northwestern Missouri state that heavy rains prevailed yesterday considerably damaging wheat in shock. The heavy fall of rain has caused the Missouri river to rise again to the flood stage. The water in the river now stands seven inches above the high water mark, having risen eight inches during the past twenty-four hours. The river had just receded far enough to allow the people who had been driven from their homes in the bottoms to resume their residence there. If the water rises a few inches more they will again be compelled to abandon their homes.

Kansas Wheat Injured by Rain.

ABILENE, July 8.—A heavy rain, accompanied by much electricity, poured down all last night. Several houses were struck by lightning but no one seriously injured. Considerable damage was done to wheat as harvest has been delayed by previous rains.

Heavy Rain in Colorado.

LAS ANIMAS, July 8.—A severe rain and hail storm visited the western part of Bent and the eastern part of Otero county last evening, damaging the growing crops to the amount of about \$20,000.

RAVENNA WRECK.

The Freight Train Was Running on the Time of the Express.

RAYENNA, O., July 8.—The coroner's inquest investigating the recent Erie wreck was continued yesterday. S. C. Arnold, of Kent, testified that the freight train left Kent almost immediately after the passenger train had pulled out, and that when the freight was under way the express was not more than 200 feet ahead of it. The speed recorder on the freight locomotive showed that the train ran the first three miles at the rate of twenty miles an hour, the fourth twenty-eight miles and the fifth and sixth at the rate of thirty miles an hour. When the collision occurred it was going twenty miles an hour.

Barney Dyer, watchman at a crossing about three miles west of the wreck, swore that when the freight passed him the express was not more than a mile away. This testimony, it is said, shows that the freight had encroached at least three minutes on the time of the express, which was running late with a heavy train. The freight had orders to run thirty miles an hour, five miles faster than schedule time.

The testimony also to a large extent exonerates Flagman Boynton, as it shows he had not sufficient time to flag the freight far enough behind to stop it. The story that a dozen passengers of the ill-fated train are missing is emphatically denied by Conductor Boynton.

A Fountain of Youth.

WHITE SULPHUR WELL, Ind., July 8.—A large spring on the farm of Louis Brandenburg, near here, has been discovered to possess wonderful magnetic and healing powers. Old sores, rheumatic limbs, etc., bathed in it are wonderfully relieved. The discovery was made by Mr. Brandenburg bathing a lame horse, which recovered in shorter time than expected. It is now noticed that Mr. Brandenburg, once supposed to be dying of consumption, has recovered and his family are all remarkably healthy.

Bishop Dwenger Seriously Ill.

FORT WAYNE, Ind., July 8.—Right Rev. Joseph Dwenger, bishop of the Fort Wayne diocese of the Catholic church, is very low and has been given up by the attending physicians. Bishop Dwenger suffers from heart disease, and the end is liable to come any moment. At his own request the rite of extreme unction was administered to the dying prelate yesterday evening. Bishop Dwenger was consecrated bishop of Fort Wayne April 14, 1872.

Availing Requisition Papers.

NEW YORK, July 8.—Walter S. Beersford, the young Englishman who is wanted at Rome, Ga., for swindling merchants of that city, was yesterday committed to await the arrival of requisition papers, Sheriff Moore, of Rome, having notified Acting Police Superintendent Byrnes that the papers were on the way.

Will Jackson and Slavin Fight?

SAN FRANCISCO, July 8.—The California Athletic club has decided to offer a purse of \$10,000 for a finish fight between Peter Jackson (colored) and Francis P. Slavin, both of Australia. The offer has been telegraphed to Slavin, who is in London, and an early reply is looked for.

FARMERS' DEMANDS.

The Wheat Crop to Be Held Until They Can Get Their Own Price.

CHICAGO, July 8.—A circular of advice issued through accredited official channels of the Farmers' Alliance to all members of farmers' organizations in the United States urges them to combine and withhold this year's wheat crop from market until the farmers can get their own price, or at least a price considerably above the average.

This circular, which is presumed to be a secret document, is now ready for mailing, and it will be sent to the 2,000,000 members of the Farmers' Alliance and Industrial Union, the 1,000,000 members of the Colored National Farmers' Alliance, the 1,000,000 members of the National Farmers' Alliance of the North, the 800,000 members of the Farmers' Mutual Benevolent association, the 600,000 members of the Patrons of Husbandry and the Patrons of Industry, and the 150,000 members of the Farmers' league. The farmers' organizations now apparently feel in a position to make demands calculated to yield pecuniary profits to the agricultural classes, and they propose to begin with a gigantic combination in wheat.

Young People's Baptist Societies.

CHICAGO, July 8.—The first national convention of the young people's societies of the different Baptist churches in the country was called to order by the Rev. Dr. Perrin, at the Second Baptist church yesterday, over 1,000 delegates being present. The object of the convention is to form a permanent organization of the young people in the Baptist church throughout the entire country for the purpose of strengthening the church work, the better teaching of the Baptist doctrine and history, and to further the home, foreign and domestic mission work.

Searching for a Lost Package.

ST. LOUIS, July 8.—Messenger Clem Kellogg, of the Pacific Express company, is temporarily under arrest and has been laid off owing to the mysterious disappearance, in transit, of a package containing \$5,000, expressed by the Louisiana Lottery company to one of its customers here. The party to whom the package was shipped not receiving it investigated the matter, with the result that the messenger between New Orleans and Memphis, and Kellogg, who runs between here and Memphis, have been suspended.

Death From Excitement.

ATLANTIC CITY, July 8.—George S. Harris, senior member of the firm of George S. Harris & Sons, Philadelphia, the largest lithographing and printing establishment in this country, died suddenly yesterday afternoon while out driving with his wife at Chelsea. Heart failure was the cause induced by the excitement in trying to curb an unruly horse. His body was taken to his summer cottage, and the family in Philadelphia notified. Mr. Harris was 67 years old and is an old cottager here.

The President a Good Sailor.

CAPE MAY, July 8.—The president, with Mrs. Harrison and their guests, went to Sewells Point by train yesterday morning, where they embarked on the yacht Clover for a sailing and crabbing expedition. There was a brisk breeze, making the spray fly right lively. Both the president and Attorney General Miller were very successful in catching crabs and a fine basketful was secured and sent to the cottage for dinner. The president proved to be a good sailor.

The Situation at Salton Lake.

LOS ANGELES, Cal., July 8.—Nothing of an authentic nature was received from Salton lake yesterday. Reports were received that the water has risen two inches, but that the salt works are still running, and the measurements yesterday afternoon show only twenty-three inches in the deepest part. The men sent out from Ogilby have not yet been heard from and some uneasiness is felt. If they do not appear tomorrow another party will start out at once.

Disabled Steamer Arrives.

NEW YORK, July 8.—The steamship Servin, which was disabled on Saturday night, arrived yesterday, having been towed into port by the steamship Chester, assisted by several tugs. The accident happened on Saturday night when the steamer was about 210 miles east of Sandy Hook, and consisted in the breaking of the crank pin, which disabled the engines. The sea was calm at the time and but little uneasiness was felt among the passengers.

The Itata's Cargo.

SAN DIEGO, Cal., July 8.—United States Marshal Gard in an interview declares that when the Chilean steamer Itata ran away from San Diego two months ago to get the arms received from the schooner Robert and Minnie at sea, she had aboard four sixty-pound guns, one Gatling gun and one howitzer. She also had sixty new rifles and 200 old rifles. The marshal says he has abundance of sworn testimony to prove this.

Long Trial Begun.

ST. LOUIS, July 8.—The second trial of ex-State Treasurer Nolan on the charge of embezzling nearly \$33,000 funds has been commenced in the circuit court at Jefferson City. From present indications the trial will continue all of this and part of next week.

Death from Apoplexy.

BUFFALO, July 8.—John Grienier, aged 68 years, of the wholesale grocery firm of Miller & Greiner, the largest establishment of its kind in western New York, died suddenly last night of apoplexy, while preparing for a business trip to New York.

Carried Another with It.

FLORENCE, Ala., July 8.—The Bank of Commerce, Sheffield, Ala., has closed its doors. The failure is due to the failure of Moses Brothers, of Montgomery, Monday. The Sheffield bank was a branch of the Montgomery bank.

DEMOCRATIC STATE TICKET.

For Clerk of Court of Appeals,

ONE billion, three hundred million dollars paid out for pensions in thirty years!

EVERY Democrat in Kentucky should take great pride in supporting the State ticket. It is one of the best the party has ever nominated.

TALKING about the people's party, has not the Democratic party always been the people's party? Hasn't it been fighting the classes in the interest of the masses for years?

BROWN, Alford, Hendricks, Hale, Thompson, Norman, Swango, Addams, all splendid men, all men of ability, thoroughly qualified for the positions in the State Government for which they have been nominated.

The Farmers' Alliance revolutionized Republican Kansas last year and they have now turned their attention to Democratic Kentucky. Fighting against Democrats is quite a different thing from fighting against Republicans.

THE People's party has Senator Peffer, "Socks" Jerry Simpson, Tanbueck and others talking Alliance principles to the people of the State. When they appeal for popular support, they ought to put up men worthy of confidence.

THAT staunch Republican journal, the Chicago Tribune, thought some weeks ago that "the Republicans had recovered from their brief madness of McKinleyism," but since McKinley was nominated for Governor of Ohio, it has been so disgusted with its party that it has maintained silence.

ROBERT SCHILLING, Secretary of the National Central Committee of the People's party, is announced to spend the greater part of July stumping Kentucky in the interest of his party's State ticket. From the way they are rushing in their big speakers it looks like they imagine they are going to wrest Kentucky from Democratic hands.

THE Louisville Times thinks the people of this country made the worst trade recorded in history when they swapped Cleveland and Carlisle for Harrison and Reed. It says: "Everybody knows that if Grover Cleveland had been re-elected President in 1888, and had John G. Carlisle been Speaker of the Fifty-first Congress, the \$50,000,000 and upwards of four-and-a-half per cent. bonds would have been paid without embarrassment to the public treasury."

And that \$100,000,000 surplus would not have been squandered in reckless extravagance.

THE Tri-weekly Commonwealth suspended publication yesterday. Captain Gaines' friends regretted to learn the news. In his announcement he says: "A four-months' trial has convinced me that there is no reason to hope for any material improvement in the patronage which has been bestowed upon the paper, and as I am unwilling longer to incur the heavy pecuniary loss which its publication involves, there is no other course open to me than the one I now adopt."

The Weekly Commonwealth will be continued, and as Captain Gaines will devote his entire time and attention to that paper it will be better and brighter than ever.

The New Debt.

The pension list of the United States on the 31st of May contained 630,391 names. This exceeds by 135,000 the peace establishment of the German Army.

The cost of the pension list for this year will be \$130,000,000. This exceeds by nearly \$50,000,000 the cost of the great standing army of Germany.

The pension disbursements on this basis represents a public debt of over four thousand millions of dollars at 3 per cent. The highest point ever reached by the bonded war debt was only two thousand seven hundred millions.

After twenty-five years of debt-paying unexampled in the history of nations, the United States are now burdened with \$17,000,000 more annually for interest on the war debt and for pensions than they were 1866.—New York World.

Skiffs Must Carry Lights at Night.

The Inspector for this district has issued the following: "Rule 12, of Section 4,233 of the Revised Statutes of the United States, provides that coal boats, trading boats, produce boats, canal boats, oyster boats, fishing boats, raft or other water craft navigating any bay, harbor or river, by hand power, horse power, sail, or by the current of the river, or which shall be anchored or moored in or near the channel or fairway of any bay, harbor, or river, shall carry one of more good white lights, which shall be placed in such manner as shall be prescribed by the Board of Supervising Inspectors of Steam Vessels.

"In compliance with the provisions of Rule 12, of Section 4,233, of the Revised Statutes of the United States, the Board of Supervising Inspectors of Steam vessels has provided by the enactment of a rule that rowboats (or skiffs) employed at or during the night time, shall carry one white light two feet above the stem (or bow).

"Therefore, any person engaged in rowing any skiff or rowboat, engaged in any navigable waters during the night time without having such skiff or rowboat provided with the light required by law, is guilty of a violation of the law, and liable to prosecution in the U. S. Courts."

Church of the Nativity.

Bishop Dudley in his address before the late Convention of Diocese at Paducah made the following allusion to his recent visit to Maysville and to the improvements in the church:

"On the third Sunday after Easter I had the great pleasure of ministering in the Church of the Nativity, Maysville, which had been so entirely changed and so gloriously improved that I could hardly recognize it as the old building in which for so many years we had worshipped. I marveled, and I still marvel how such beautiful results could have been accomplished with so small an outlay. But I recognize that the intelligent superintendence of the Rector and his untiring attention to the working out of his plan in its most minute detail are to be counted as large additional expenditure. And so I thank him for what he gave of inspiration and of guidance, which made the improvement a possibility and glorious success."

Senator Carlisle Opposes It.

COVINGTON, Ky., July 4, 1891.
Hon. J. Stoddard Johnston, Louisville, Ky.—Dear Sir: Absence from home has prevented an earlier receipt and acknowledgment of your favor of June 24. In my opinion it would be a great mistake to adopt the proposed new Constitution as it now stands, and it was my purpose at one time to write or say something upon the subject, but the question is a large one and I found that my engagements would not permit me to discuss it in a satisfactory manner, and, therefore, concluded to let it alone. I am obliged to leave for New York in a few days to attend a meeting of the Senate Sub-Committee. Yours truly,
J. G. CARLISLE.

Baron Fava's Previous Sentences.

It has long been a standing joke among the diplomats that it was well nigh impossible to even catch Baron Fava at his apartments. Outside his door is always hanging a little sign, "Out," and very few ever seemed to have had the good fortune to call when it was reversed to read "In," if it ever did read "In."

On the night that he failed to appear at Mr. Wanamaker's dinner there were a good many telephone messages sent around by some of the other foreigners who were present to endeavor to remind him in time of the engagement. None succeeded in reaching him until very late, and when the answer came it created some consternation. The person who repeated the message from the Wanamaker telephone announced that "Mr. Fava was dying at home." After the message was repeated again several times it was discovered that, far from any such dreadful state of affairs, the baron was only "dining" at home.—Boston Journal.

Mrs. Parnell's Horse.

Mrs. Maria Lamson, of Baltimore, who is a cousin of Charles Stewart Parnell, says that Mr. Parnell's mother has one curious idiosyncrasy in regard to a horse she owns. She will not use the animal herself or permit any one else to use him. He has not been harnessed for years, but stands in the stable and eats, the year round. He has grown so vicious through neglect of handling that he has to be fed through a hole in the wall. Water is passed into him once a day on a long pole.—New York World.

A Singular Spook.

The household of Hiram Ruthless, of Mechanicsburg, O., is deeply distressed by the remarkable conduct of an "apparition." The spook has been in regulation style rapping on the walls, gliding through passage ways and making general mischief. Recently the ghost has taken to such practical work as shoveling coal into the stove and setting the breakfast table, and Mrs. Ruthless is thinking about dispensing with the services of the hired girl.—Philadelphia Ledger.

Children Enjoy

The pleasant flavor, gentle action and soothing effects of Syrup of Figs, when in need of a laxative and if the father or mother be costive or bilious the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle.

OUR NEIGHBORS.

GERMANTOWN.

Miss Kate Egan, of Mason County, spent several days with the Misses Mulliken.

Mr. and Mrs. H. B. Galbraith will visit Carlisle during the week, going by way of the Blue Licks.

Thos. Miller, the grain miller of our town, has moved his engine to the grain fields, and will be a miller no more until after the threshing season.

Mr. James Dawson and his bride, nee Miss Maggie Stiles, all of Maysville, have been spending a few days with the family of her grandfather, C. Stiles.

A large concourse of people assembled at Two Lick Baptist Church on Sunday to hear the funeral discourse of Mrs. Eph Moneyhon, deceased.

Rev. J. E. Wright, of Maysville, preached at the M. E. Church, South, Sunday night. He will assist the pastor in continued meeting at Hebron during the present week.

We are glad to congratulate our old "Tyro," as we see in the BULLETIN that Uncle Sam comes to his relief with \$4 a month. The man who said "Republies are ungrateful" was surely mistaken.

The ladies of the Christian Church will give a grand supper at the town hall Saturday evening, July 18th. Proceeds for purchasing a large chandelier for the church. We announce it thus early that everybody may have time to get ready to come, as they will be prepared to entertain a large crowd.

ORANGEBURG.

The wheat harvest is over and now they have commenced the hay harvest.

Miss Little Williamson is the guest of 'Squire L. M. Collis's family this week.

Wm. H. Roe has commenced threshing wheat. He bought a new threshing machine.

Miss Cora Luman has returned home after a pleasant visit to relatives in Maysville.

Mrs. Fowler and her sister Mrs. Jarvis, of Sharpsburg, are visiting the family of their father, H. B. Taylor, of this neighborhood.

MT. CARMEL.

Miss Alice Foxworthy left for Nashville, Tenn., Tuesday morning.

The Elzer Bros. started for Mason Tuesday morning with their threshers.

The following frank statement from J. E. Hare, of Trenton, Texas, will be of interest to many of our citizens: "My little boy was very bad off for two months with diarrhoea. We used various medicines, also called in two doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhoea or colic medicine." For sale by Power & Reynolds.

RETSEOF MINING SALT CRMPANY'S

ROCK LUMP SALT FOR CATTLE

To FARMERS, STOCK-RAISERS and OTHERS:

It is not generally known that the use of common loose salt for cattle, horses, sheep and hogs, is injurious to them, but such, however, is the fact. Their nature requires only so much salt as will be absorbed by the saliva. By the ordinary method of salting, more or less of the loose salt is carried undissolved into the stomach, causing irritation to the membranes and coating.

In many well authenticated instances the death of sheep, and attacks of colic and other difficulties in horses and cows have been traced to this cause. It is very desirable, therefore, that some method of salting stock be employed. The most suitable form of salt for this purpose is furnished by nature in the Rock or Mineral Salt, and the best possible method of supplying it to stock is to place lumps of it in the mangers and other places where it can be easily reached when required. It goes four times as far as common salt, and is cheaper at any reasonable price. Any stock will do 20 per cent. better by using our Rock Salt. They do not have that terrible thirsting for water caused by using common salt, which contains large quantities of lime and magnesia, our salt being the only salt known free from these impurities.

SPLENDID TESTIMONIALS.

The Recommendations of the New Principal of the High School.

The action of the School Board in selecting Professor Milton Johnson as Principal of the male department of the High School was based upon the following splendid testimonials:

GLASGOW, KY., April, 14, 1888.
To Whom It May Concern: Mr. Milton Johnson is a graduate of this school (the Glasgow Normal School), holding the well-deserved degree of Bachelor of Science. In every relation, Mr. Johnson has shown himself the true gentleman, upright, genial, courteous and of high integrity. Mr. Johnson's work has been of the highest character, and has given the greatest pleasure and gratification to all his teachers. He has proved himself competent and thorough, and is fully capable of teaching successfully any branch in the curriculum over which he has passed. I most cordially recommend Mr. Johnson for any position he may ask. He will be a force for good and growth in any community where he may labor. Very respectfully, R. N. ROARK, President State Normal School.

PHILADELPHIA, March 20, 1890.
It gives me great pleasure to bear testimony to the scholastic and professional qualifications of Professor Milton Johnson. He is a gentleman of excellent attainments, has made himself familiar with the best methods of modern instruction, and possesses a high ideal of the work of the teacher and educator. Besides these professional qualifications, he is also a gentleman of refinement and social culture, and is worthy of the fullest confidence of the friends of education. I cordially recommend him to any school authorities desiring to secure an instructor or superintendent of undoubted abilities and qualifications. EDWARD BROOKS, Late President State Normal School of Pennsylvania.

DOVER, N. H., Sept. 8, '89.
To the Public: I know Professor Milton Johnson to be a man of pure character and fine scholarship. I find him thoroughly versed in psychology and in the history of educational science, and these facts, together with a quiet and winning manner and industrious habits, lead me to believe he will make a success of any educational work. Respectfully, WM. T. HARRIS, President Polytechnic Institute.

Professor Johnson has excellent recommendations also from Walter S. Parker, of the Everett School, Boston; from Charles F. King, President of the National School of Methods, of Boston; from L. A. Ostien, Ph. B., C. E., Principal of the Meridian Collegiate Institute, Meridian, Miss., and from many others.

YESTERDAY was 'Squire Grant's regular court day. He disposed of twelve civil and two criminal cases. Arch Winter, who was before him on a peace warrant, was discharged.

A LARGE stock of scythes, snaths, forks, hoes, wheelbarrows, screen doors and window screens can be found at Frank Owens Hardware Co.'s. The window screens are self-adjusting; will suit any window.

THE Maysville Cemetery Company at its regular meeting held yesterday elected John G. Hickman, Esq., President and Messrs. Wm. Wormald and H. L. Newell directors. The Board of Directors now consists of John G. Hickman, H. C. Barkley, A. R. Glascock, W. S. Frank, J. James Wood, James H. Hall, G. W. Blatterman, R. F. Means, Wm. Wormald and H. L. Newell. Mr. G. W. Blatterman is Secretary and Treasurer.

Mr. Hickman was chosen President to fill the vacancy caused by the death of Judge Stanton. Committees were appointed to have a new fence built to definitely separate the public burial ground of the city from the cemetery and to build a new fence between the infirmary and sexton's residence; also to grade, rock and gravel the four main avenues running from east to west. The financial condition of the company is such as to enable it to do all necessary work, and beautify the grounds and to guarantee to the lot owners that for the future the grounds will be even better cared for than they have been in the past.

That Game of Ball at Portsmouth.

The Portsmouth Blade is away off when it says the Maysville club has been organized since 1882. The team was got together only recently, and had played only two or three games before they visited Portsmouth. Speaking of Saturday's playing at that place, the Blade adds: "Had no errors been made the morning game would have been Portsmouth 8, Maysville 0, and the afternoon game Portsmouth 10, Maysville 2. Heavy batting won both games, and that's the way Portsmouth always won. Maysville, so their backers said, would win the afternoon game. Oh, yes, they'd do it sure. To back their assertion, they placed their money at two to one. Cox, their phenomenal pitcher, was to curve, and for winning the game get \$25. Under these circumstances the game began, and ended with Cox hammered out of the box, and twenty-two runs against him."

MOUNT VESUVIUS.

It is Again Becoming a Dangerous Volcano.

GREAT ERUPTION IMPENDING.

Villagers on the Slope Already Abandoning Their Homes and Fleeing for Safety. Earthquake Shocks Felt in Several Parts of Italy—Other Foreign News.

LONDON, July 8.—A dispatch from Rome says that the villagers in the slope of Mount Vesuvius are abandoning their homes and their vineyards, fearing that one of the greatest eruptions in the history of the mountain is impending. The earthquake shocks that have always preceded destructive outbursts of the volcano in the past have been felt in several parts of Italy, and of late in close proximity to the mountain. The authorities of Naples are keeping a close watch for signs of increasing danger, and visitors are warned not to approach too near to the crater, and to avoid the path of the lava.

Since the death of a Brazilian journalist a few days ago, by falling into the crater, several travelers have shown a morbid desire to gaze into the pit of molten lava in which the unfortunate man disappeared. In such cases, should another fatal accident occur the guide, the prefect of police has stated, will be prosecuted. It is the opinion of Italian scientists that the earthquakes afflicting the peninsula will increase in violence until Vesuvius breaks out in a serious eruption, and that then the earthquake visitations will for the present subside.

Royal Banquet.

LONDON, July 8.—There was a magnificent state banquet in honor of the Kaiser and Kaiserin in St. George's hall, Windsor, yesterday evening. All the members of the English and German royal families in England were present, including the queen, the Kaiser and Kaiserin, the Prince of Wales and the various princes excepting, of course, the young children. The leading ambassadors were also present, including Count Hatzfeldt, the German and the Russian ambassador, the Duke and Duchess of Portland, Lord Salisbury and Lord Kimberley. The guests sat at a table 150 feet long, whereupon were displayed gold candelabras and the royal plate valued at £1,800,000.

Germany Opposed to Monopolies.

BERLIN, July 8.—The German government is preparing to prosecute any trader who may be found responsible for corner in corn. The Kaiser has declared his hostility to monopolies, and Chancellor von Caprivi, as an excuse for keeping up the corn duties, has given currency through semi-official expression to the suggestion that the high price and comparative scarcity of corn are attributable rather to corners and combinations than to any real lack of the article. This, however, is not generally believed, although it has been undoubtedly some sharp price in prices.

Chilian Insurgents Confident of Success.

PARIS, July 8.—The agents in this city of the Chilian insurgents say that the advices they have received warrant confidence that their troops will occupy Santiago within a month. They will resume the campaign simply provided with rifles and field guns. The probable plan of the congressional commanders will be to land between Valparaiso and Serena, crush the main body of the Balmacedists, rouse the people and march on to Santiago.

Balloon Accident.

LONDON, July 8.—A singular accident is reported in connection with the naval exhibition. A balloon sent up from the exhibition fell, during a storm on Berkeley Heath. The balloon wrecked the cottage of a man named Lee, who was buried in the folds of the balloon and nearly suffocated by gas. Three persons who were in the balloon escaped unhurt.

Left on Two Days' Notice.

VIENNA, July 8.—In Snolensk, Russia, last week, the police ordered all the Jews to embrace the Russian or the Orthodox faith. The Jews assembled in their synagogues and solemnly vowed that they would stand by the faith of their fathers. They sold their houses and other property within two days and emigrated.

A Leper at Lisburn.

LONDON, July 8.—Some consternation has been caused at Lisburn, a flourishing town in the north of Ireland, having intimate connections with Belfast, by the discovery of a leper among the paupers of the town.

CAPITAL PUNISHMENT IN NEW YORK.

The Execution of Murderers by Electricity a Success.

SING SING, N. Y., July 8.—The killing yesterday morning in the prison wall of Sing Sing, of the four murderers James W. Slocum, Joseph Wood, Harris Smiler and Schlick Jugigo, is thought to have been an entire success, although the official report has not yet been given out and all the witnesses refuse to talk. Slocum killed his wife, Nellie, with an ax in their rooms at 114 Roosevelt street on the night of Dec. 31, 1883.

Wood, colored, killed Charles Ruffin, also colored, in a grocery store in a shanty near Shaft 21 on the line of the new aqueduct, on Sunday, May 19, 1889. Wood and Ruffin were laborers employed on the aqueduct.

Smiler on April 3, 1889, murdered Maggie Dralney, one of his three wives, at 284 Seventh avenue.

Jugigo was convicted on Dec. 3, 1889, of murdering a fellow Japanese sailor named Mura Commi in a boarding house at 85 James street.

A Drunkard's Awful Deed.

AURORA, Ill., July 8.—Early Tuesday morning John R. Dowde, of this city, chopped his wife in the head with a hatchet. He then stuck a knife into his own heart, dying within a few minutes. Mrs. Dowde is still alive, but with small hopes of recovery. Dowde was in the habit of drinking, at which times he was very quarrelsome.

SUFFERING SAILORS.

One Hundred and Four Days on a Desolate Island.

NEW YORK, July 8.—A dispatch from Auckland, New Zealand, reports that the bark Compadre, bound from Calcutta for Chili, caught fire at sea. After an ineffectual effort to subdue the flames the captain steered his course for Bluff Harbor, a seaport of the province of Otago, New Zealand.

He had succeeded in bringing his burning vessel to the mouth of the harbor, when a tremendous hurricane overtook her. The exhausted crew spent their last energies in attempting to keep down the raging fire and at the same time force the unfortunate bark to face the tremendous winds and seas which beat upon and rushed over her. All was of no avail. After a desperate struggle with the opposing elements the Compadre became water-logged and was driven with fearful force upon the rocks of the desolate and uninhabited Auckland Island.

After incredible suffering the crew of the bark succeeded in swimming ashore. Here the miserable men were forced to spend 103 days and nights, suffering the extreme wretchedness of exposure and starvation. On the 104th day of their being cast away their distress signals were observed by a passing sailing vessel and the sorely tried sailors were taken off in safety, but in a distressing condition of weakness and emaciation. During their enforced stay on the island, one of their number wandered into the bush and was never heard of again. It is supposed the suffering drove the man mad.

Inquiries About the Charleston Wreck.

CHARLESTON, W. Va., July 8.—All the injured in Saturday's wreck are still living, and most of them improving. Mrs. Truslow, of this city, and William Ford, of Elk City, the two whose conditions are most critical, particularly that of the latter. The grand jury is in session, and they were particularly charged by Judge Snyder to inquire into the cause of the wreck, and in case criminal negligence was found, to return indictments. It is considered the coroner neglected his duty in failing to hold inquests, and the matter will be thoroughly investigated by the grand jury.

Two Pittsburg Embezzlers.

PITTSBURG, July 8.—A. D. Donthett, secretary and treasurer of the Porter-Donthett Machine company, has been arrested, charged with embezzling \$12,790. The charges were made by J. C. Porter, Jr., one of the company. Mr. Donthett says the affair is the outcome of a quarrel with the company.

Thomas Porter Brown is in jail here for embezzling over \$1,000 from Thomas Latimer, a dry goods merchant of Allegheny. Brown has wealthy relatives, but they refuse to help him.

Made Short Work of a Rapist.

ATLANTA, July 8.—Fifty mounted men fully armed broke open the jail at Blanche, Ga., last night, and took therefrom Roland Berry, a negro who raped Mrs. O. Brown, last Friday, and took him to a spot one mile from town, tied him to a pine sapling, and riddled his body with bullets.

Remarkable Damage Suit.

SPRINGFIELD, O., July 8.—Fifteen years ago Frank Woosley and John Brock left here to go to Texas and raise cattle. Woosley disappeared and Brock was suspected of murdering him. Brock narrowly escaped lynching. He devoted the balance of his life and fortune to finding Woosley and succeeded in locating him last week, thus proving his innocence. He will now sue Woosley for \$20,000 damages for not discovering himself when he knew of the search.

Cheaper Rates to California.

SAN FRANCISCO, July 8.—The reduction in passenger rates between this city and Chicago was officially announced and went into effect yesterday. The cut is made to meet that recently announced by the Chicago and Alton railroad. The new schedule makes the first class rate on the Canadian Pacific railroad \$60 and the second class rate \$45.

Knights Will Meet in Toledo.

TOLEDO, O., July 8.—General Secretary-Treasurer Hayes, of Philadelphia, yesterday notified District 721, secretary, Mr. A. P. Stevens, that the next session of the general assembly of the Knights of Labor would be held in Toledo, beginning Tuesday, Nov. 10.

Killed in Bed.

LAPORTE, Ind., July 8.—During a violent rain storm at Michigan City lightning struck the residence of Carl Mroff, killing him instantly. His wife and infant child, who occupied the same bed with him, were not injured a particle.

Print Works Destroyed by Fire.

NEW YORK, July 8.—The large four-story building of the Empire Print works, at Jane street and Thirteenth avenue, was burned early yesterday evening with the stock, machinery, etc. The loss is estimated at \$200,000. The building and business were owned by Worthen & Aldrich.

Jewelry Shop Burned.

NORTH ATTLEBORO, Mass., July 8.—The jewelry shop of the Sewell and Hall Manufacturing company, at Wrentham, was burned yesterday. Loss, \$12,000; insurance \$8,000. An explosion of gas caused the fire. Edward Hall and Duke Pierce were badly burned by the explosion.

No Yellow Fever in Brunswick, Ga.

ATLANTA, July 8.—A dispatch just received from Brunswick, says the reports in circulation about the prevalence of yellow fever there have not the slightest foundation in fact.

Base Ball Writer Dead.

NEW YORK, July 8.—W. I. Harris, widely known as a writer on base ball and other sporting topics, died at his home in this city yesterday, of consumption.

Postmaster Short in His Accounts.

CHEYENNE, Wyo., July 8.—James L. Cowan, postmaster at Dixon, Wyo., was arrested yesterday, charged with being short \$1,100 in his money order accounts.

Fruit Failure.

OMAHA, July 8.—A. F. Phelps, fruit and general commission firm, has failed. Liabilities, \$25,000; assets, \$10,000.
